

GIRL'S DAY 2025

24th of April

Become a partner of the 12th annual Girl's Day event

The event is part of the International Girls in ICT Day which is celebrated worldwide on the fourth Thursday in April.

The goal is to introduce the world of IT and modern technology to girls aged 15-19 and make them aware of the opportunities that this sector has to offer in terms of studies, work and/or business.

More than 10,440 secondary school girls have participated in the event in the 11 years that Girl's Day has been organised by Aj Ty v IT in Slovakia.

During the event

- We will **bring together** high school girls from all over Slovakia under one umbrella event and change their perspective on IT,
- Thanks to you we will **Connect** them with women who are already studying or working in the field and who enjoy and find their work fulfilling,
- **Encourage** girls to be interested in ICT and subsequently work in the field.

Organising the event

- The host organisations will **create a programme** for the girls and show them how the company works, introduce them to inspiring women from their ranks, or teach them selected skills.
- Aj Ty v IT will provide **tips and guidance** on how to organise a **successful event**.
- For companies, Girl's Day is the perfect opportunity to get to know **how the upcoming generation thinks and acts**.

Register as a partner organisation by 28 February 2025.
The registration fee is €500.

Included in the partnership:

- Publication of the **company logo** on the girlsday.sk website,
- Arranging **communication with secondary schools** and **managing the registration process**,
- **Tagging** partner organisations on **social media** after the event,
- **Outputs and feedback** prepared and related directly to the program in your company.
