

# SUMMER INNOVATION BUSINESS COCKTAIL

June 19 | 2025

The Summer Innovation Business Cocktail in Bratislava, held at the stunning Mint Pradiareň, brought together a vibrant mix of business leaders, innovators, and community members for an evening of connection, inspiration, and celebration. With the stylish venue, warm summer energy, and dynamic conversations, the event offered a perfect setting to reflect on achievements and ignite new ideas.

Following the General Assembly earlier that day, the cocktail event offered a moment to celebrate progress and renew collective momentum. With the support of its members and partners, AmCham Slovakia remains committed to shaping a thriving, innovative business environment for the future.

This year's theme, 'Competitive Slovakia', was at the heart of the evening and the conversations were centered around the critical role of innovation and collaboration in building a future-ready nation. Attendees had the chance to engage with founders of cutting-edge startups—easily spotted by their green scarves and ties—who shared bold visions and breakthrough projects.

The evening also featured the announcement and celebration of AmCham's Top Supporters of 2024, honoring member companies whose outstanding contributions continue to drive AmCham's mission forward.
