

**Viktória Moros**

Project Manager & Business Academic Relations Representative, IBM Slovakia

**Mission Statement**

My vision within the committee is to continue with successful projects and collaborations not only with representatives of the state and ministries but also with employers and the academic community on key issues related to the development of education and its connection to the labor market, with the goal of ensuring sustainable and continuous growth of young talent. Through the committee's activities, I would like to support creating opportunities and acquiring essential skills for their successful integration into the job market, so they believe and prove that it is possible to change the world even from here, from Slovakia. I would also like to promote cooperation between member companies and universities in Banská Bystrica and Zvolen, as this region is crucial for many talents from central Slovakia, and I want to make excellent projects and programs, that AmCham oversees within its educational initiatives, accessible to them. Last but not least, I aim to connect and support collaboration between students in Slovakia and abroad to share knowledge and inspiration, develop key skills, and motivate students to contribute to Slovakia's development.
