## **AmCham BSCF leadership election 2025**

### **Peter Horňák**

Financial Services Lead at CEE Advanced Technology Center  
Accenture Slovakia

### **Personal Statement:**

I am eager to contribute to the Business Services Center Forum's mission and goals, drawing on Accenture Slovakia's deep commitment and our position as one of the largest IT employers in the region, with 2,000 dedicated professionals. My vision is to actively champion initiatives that ensure talent emerging from universities is not just skilled, but truly prepared for the fast-paced, ever-evolving world of new technologies. Building on Accenture's proven track record of university collaboration and our position as a leading IT services company, I believe we can offer invaluable insights and support to bridge this gap and foster robust information sharing and best practices across the BSC sector. Furthermore, I believe that together, with the support of the BSCF, we should continue to actively communicate and advocate to local and national authorities, as the Shared Services Centers industry is undeniably one of the key pillars of the Slovak economy and deserves greater attention and support.
