

Tomáš Rybár

Vission for Working with Employment and Social Affairs Committee

My vision is to actively support the Employment and Social Affairs Committee by leveraging my ongoing involvement and close cooperation with its members and leadership to drive practical, step-by-step improvements in employment legislation. I aim to continue initiating constructive dialogue with authorities, as demonstrated through our work on electronic employment documentation and the implementation of the Pay Transparency Directive. Through my role and expertise in employment law, I seek to contribute to meaningful, sustainable changes that enhance transparency and modernization in the labor framework.
