

Júlia Hurná

Governmental Affairs and Patient Advocacy Lead, Slovakia
Member of the Country Leadership Team
Johnson & Johnson

BRIEF RESUME

I am a senior governmental affairs and patient advocacy leader with over nine years at Johnson & Johnson Innovative Medicines, including service on the Country Leadership Team. I design and execute evidence-based policy strategies, manage multi-country initiatives, and deliver patient-centric projects that accelerate access and strengthen health system resilience. With active public-private engagement and government experience across European and international affairs, a PhD in international economic relations, and fluency in English, I bring the credibility and relationships needed to secure pragmatic, measurable policy wins.

I'm not a newcomer in the Health Care Committee leadership — I've served through some truly unprecedented times, learning and helping to steer our work. My core strengths are public affairs, coalition building, event management, and converting data into actionable outcomes. I am a team player that prefers rolling up my sleeves and getting things done more than speaking about them.

VISION

As your candidate for reelection to the Health Care Committee leadership (Vice Chair), my vision for the next term is:

- **LEAD** with focused, evidence-based advocacy to remove regulatory and access barriers and secure pragmatic, patient-centered policy wins.
- **FOCUS** the committee's resources on a small number of high-impact projects and strategic partnerships with clear owners, timelines, and measurable public-health outcomes.
- **INCLUSION** steward the committee's voice inclusively — respect a plurality of opinions and prioritize hands-on execution over rhetoric.
- **ALIGN** AmCham HCC policy work with the pillars of rule of law, human capital, innovation, and regional development.
- Continue building AmCham's **REPUTATION** as the trusted leader in advocacy.

I would appreciate your support in continuing this work — diligently, and with measurable results. Thank you for your time.
