## Vission for Working with Healthcare Comitee

AmCham's Healthcare Committee has gained momentum and secured a strong voice at the table where key decisions shaping the healthcare sector are made. My vision is to strengthen AmCham's position as an indispensable partner and influential stakeholder in shaping the future of pharmaceuticals, medical technology, and the broader healthcare and life sciences sector. I am ready to offer my legal expertise, industry knowledge, and negotiation skills to support the Committee's mission and ensure its success during the upcoming two-year period, when significant legislative changes are expected.
