

**Simona Igaz**

Value&Access and Public Affairs Head, Novartis Slovakia

**Mission Statement:**

We need to work together to ensure Slovak patients have timely access to adequate care – not just the latest treatments, but well-set patient pathways and care, which follows international guidelines. With my nomination for the position of the Chair of Healthcare Committee I believe the key to success will be open discussion and collaboration among all parties based on scientific evidence and mutual understanding. Only with joint forces, we can make difference. Thank you for your vote.
