

**Peter Šťastný**

Counsel, A&O Shearman

**Mission Statement:**

I have been an active member of the AmCham Public Procurement Task Force for 15 years, and I am committed to revitalizing engagement with this critical area. My priority is to raise interest and awareness at a time when I sense growing resignation. I will pursue this by strengthening the group's legislative and advocacy work, and by deepening structured cooperation with the Public Procurement Office and other key regulators.

I also intend to broaden the task force's scope to capture adjacent topics that naturally intersect with public procurement and can generate meaningful synergies, including competition law, state aid, and EU funds and other support instruments. This expanded agenda will make the task force more relevant, more dynamic, and better positioned to deliver impact for AmCham members and Slovakia's business environment.
