

Viliam Myšička

Office Managing Partner, Kinstellar

Mission Statement:

Dear AmCham members,

Thank you for the opportunity to apply for the position of chair of our committee. I believe that AmCham has a unique role in the legislative process – to be a bridge between lawmakers and the business community. Our strength lies in bringing practical market experience that helps create solutions that are not only legally correct but also functional and trustworthy.

My vision is clear: I want restructuring to become a truly usable tool for companies, not just a theoretical option. This means easier access to financing during restructuring, continued digitalization of processes, and strengthening the role of independent experts. The biggest challenge is to motivate entrepreneurs to act earlier – if we can create a framework for timely intervention, we will reduce the number of liquidations and preserve jobs.

As a committee, we have already shown that we can bring change – from simplifying bureaucracy to greater transparency for creditors. I want to build on this success, monitor developments in Brussels, open discussions on practical implementation of directives, and cooperate with both professional and academic communities. My goal is for our committee to become a platform for dialogue between the state and business, helping to create a modern and efficient environment that supports stability and growth.

If you place your trust in me, I will work to ensure that together we move Slovakia toward a framework that gives entrepreneurs a chance for recovery and protects creditors and employees. Thank you.
