

MAKING COMPETITIVENESS SLOVAKIA'S AGENDA

SHAPE 2026 WITH US

2026 will be the year we double down on our core mission: helping make Slovakia a country where it truly pays off to **invest, do business and live** - and turning **competitiveness** from a slogan into a national agenda.

THREE CROSS-TOPICS THAT WILL SHAPE 2026

All our policy work and events in 2026 will revolve around three cross-cutting topics that connect every pillar and every committee of AmCham:

TRUST & PREDICTABLE ENVIRONMENT

Rule of law, quality governance and trust in institutions as the foundation of a competitive economy.

TECHNOLOGICAL PROGRESS & INNOVATION

Digitalization, automation and AI as practical tools to move Slovakia forward - with smart rules and the right support.

SHAPING THE NEXT ELECTORAL CYCLE

Preparing a data-driven competitiveness agenda so that political leaders enter the 2027 elections with clear, concrete recommendations on their table.

These themes will not exist “next to each other” - they will **run through everything we do**: from regulation and rule of law, through digital transformation, skills for the future, ESG and healthcare, to transatlantic cooperation.

CROSS-COLLABORATION 2026: A YEAR OF CONNECTION

- cross-cooperation between **committees and pillars**,
- dialogue with **ministries and regulators**,
- and systematic work with **expert hubs** - economists, analysts, lawyers, and partners.

Content-rich policy events will continue to be complemented by **social & networking** formats, because connecting people and ideas is one of the strongest values AmCham offers.

T-M-R PRINCIPLES & CONSISTENCY

Our approach in 2026 is guided by our principles and values:

TRANSPARENCY & TRADITION

Our values stay the same. We are transparent in how we work and advocate, and we consistently respect democratic values and evidence-based policymaking.

MODERN & MEASURABLE

We act as modern institutions, using data, innovation and pilot projects to test solutions and show tangible impact for our members.

RELEVANT & CONSISTENT

We build our agenda on data, not noise. We stay focused on what truly drives Slovakia's competitiveness and remain consistent in our work.

We are not starting from scratch. We are building on years of continuous work of our committees, pillars and partnerships. 2026 is about **consistency** - connecting what we already have into one strong, one coherent story.

THIS MEANS FOR YOU:

- **Support of a coherent narrative** instead of many isolated activities.
- Every event, every position paper, every discussion will clearly answer: *How does this help strengthen Slovakia's competitiveness?*
- **More opportunities to get involved and connect** - in working groups, consultations on position papers, projects or sessions that test concrete measures in practice.

NETWORKING

Access to Networking & Meetings, Sharing Best Practices at 70+ Events a Year in Bratislava and Košice.

INFORMATION & INSPIRATION

Access to Information, Contacts, Business Development Opportunities, and brand Visibility.

ACCESS & IMPACT

Access to Policy & Advocacy Strategies within Committees and Task Forces.

JOURNEY WITH YOU

2026 is a key bridge year: the year we align the **voice of business and data** with the preparation for the 2027 elections - so that competitiveness actively shapes the programs and decisions of the country's leaders.

Thank you for being part of AmCham - and for helping us make 2026 a year when **competitiveness becomes the agenda for Slovakia.**
