

# SLOVAKIA 2030: AAA COUNTRY

Business & Economic Perspective

on Slovak Economy Transformation 2030

## INTRODUCTION

Top Slovak business leaders together with leading macroeconomists have taken up a task to address major questions concerning the Slovak economy transformation till 2030. It aims to outline main contours of a competitive economy structure 2030 and its implications for required investments. This would help the Government to identify optimal areas for strategic investments (including the EU recovery funds) by which the country could progress towards achieving sustainable prosperity and competitiveness.

## MAIN GOAL

An expert report, signed by the authors, endorsed by broader business community and shared with policy makers.

## EXPERTS
