

Enjoy the stunning view

LINDNER
 ★★★★★ HOTEL GALLERY CENTRAL
 Bratislava

The well-known German hotel chain Lindner Hotels & Resorts was founded by the Lindner family 40 years ago. One of their latest endeavors has been an expansion to Slovakia, where they have brought a unique concept of including a hotel within the multifunctional dimension of a shopping and leisure center.

The 4-star Lindner Hotel Gallery Central was opened in Bratislava as a part of the Central complex. Some of the many advantages of the hotel include the unique location; the possibility of linking business, leisure, and shopping; as well as the stunning panoramic view of Bratislava. The hotel offers its guest 222 rooms and suites. For business clients there are three conference rooms with daylight available. Visitors to the city will also appreciate the hotel's location, because, after a tiring day, they can relax by shopping, or in the modern wellness center with its 25-meter swimming pool.

Gerhard Mansbart

"Bratislava is our latest destination and we believe that this city has potential. Besides tourists,

we want to focus mainly on foreign and domestic business clients that we can reach with prestigious offers and a proven know-how," said Gerhard Mansbart, the director of the hotel.

In addition to 150 shops and a wellness center with an area of 2000 m², the hotel guests have a green park on the rooftop of the shopping center at their disposal. One of the biggest attractions of the hotel is the Lindner Outlook Bar & Lounge, located on the 13th floor, that, besides the wide offering of cocktails and other drinks, will dazzle its visitors with a unique panoramic view of Bratislava.

Lindner Hotels & Resorts

In 2013, the family-run Lindner Group has grown to become one of Germany's leading hotel companies. In 2012 it employed around 2,000 people and generated €170 million in

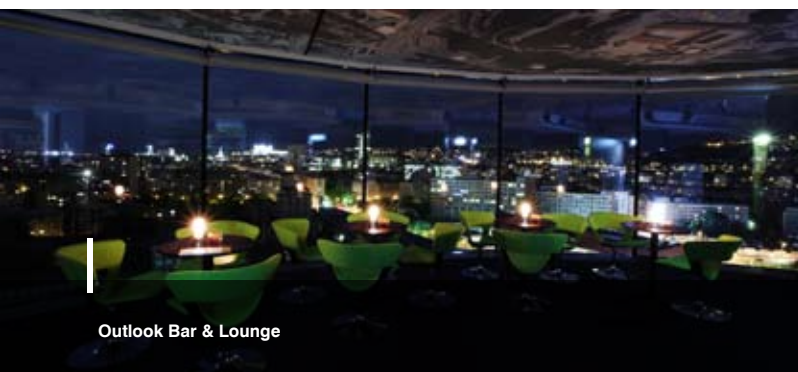

turnover. The Lindner Group currently has 33 hotels in seven European countries, ranging from modern business hotels in major cities to a variety of high-class spa and sports resorts. Otto Lindner, the second generation of the family to lead the company, has pioneered new hotel concepts that have won numerous awards. Most notably, the first-ever zoo-themed hotel, the Lindner Park-Hotel Hagenbeck in Hamburg, was awarded the Hotel Property of the Year award, and Otto Lindner was himself voted Hotelier of the Year. Lindner Hotels also regularly achieve high ratings on Holidaycheck, a travel review website.
